moment's reflection ought to convince a sensible man

A of the folly and danger of constantly dosing with Ca-thartic Medicines. The practice is pernicious and suici-dal. An experience of forty years has taught me that the constantly increasing evils of indigestion are fear-fully aggravated by the too free use of Cathartics. The American people are fast becoming a nation of dyspep-tics by their artificial modes of life. Drastic Cathartics increase the irritability, and prostrate the strength of the

digestive organs.

The Pills now offered re especially designed to allay this irritability, and at the same time to invigorate and strengthen all the functions of digestion, while they are gently laxative. They are anodyne, tonic and laxative. They are so mild and invigorating that one is not reminded by any disagreeable effects that he has taken medicine.
